

## **TATTOO EDUCATION TATTOO DESIGNS:**

**Here at Miramar Tattoo we try not to be one of the shops that has drawings posted on the walls that everyone comes in and picks from. We try to get your input on the artwork you want done and then draw you a custom tattoo that ONLY YOU will have. We find tattoos carry much more meaning for the customer this way and by doing this you end up with a totally unique piece of art to show off for a lifetime.**

### **WHAT CAN I EXPECT AT A CONSULTATION VISIT?**

**Our consultation visits are absolutely FREE. This is where you can come in and check out the shop, ask any questions you might have, and spend some quality time ONE ON ONE with the artist that will be doing your tattoo. You can expect to be asked a lot of questions about the artwork you want to get done so we can gain a very good idea of the tattoo you want. Then we can give you an exact price that will not change. Once we quote a tattoo price it is set in stone. If everything is 100% to your liking then we will ask you if you want to go ahead and set your appointment to get your tattoo work done.**

### **CLEANLINESS OF TATTOO SHOP**

**Some shops state that they use "sterilized" equipment and that there is no chance of cross contamination.. San Diego Health is learning that this is NOT TRUE. Tattoo shops that are re-using "sterilized" instruments are a thing of the past. Here at Miramar Tattoo we use 100% DISPOSABLE needles, tubes, and grips. One setup per customer then directly into an approved sharps waste container. This is the only way to ensure customer safety. We can explain this process for you in depth just give us a call..**

### **DO TATTOOS HURT???**

**I will be totally honest (I believe that that is a great trait to have) YES they hurt. But if tattoos hurt incredibly bad then there wouldn't be millions of people running around everywhere with them. We also offer the latest in "numbing" products. We offer "patches" that numb the area prior to getting the tattoo that numbs A LOT of the pain. Yes the numbing patches work (guaranteed) or there is no charge for the patch.**

### **HOW LONG WILL MY TATTOO LAST??**

**If the tattoo is applied in the correct way with the development of better pigments tattoos are now designed to last a lifetime. As long as you take care of your tattoo with proper sunscreens it will bring you a lifetime of enjoyment. All work done in our shop is guaranteed. If you ever notice fading or a small area needs fixing come on in and we will fix it at no charge.**

### **DOES LOSING OR GAINING WEIGHT EFFECT MY TATTOO??**

**Losing or gaining weight does NOT effect the tattoo unless it is SEVERE gains or losses. Severe weight gain will change the tattoo ONLY by making it appear not as bright which can be fixed by coming in for a minor "touch up". Severe weight loss does NOT really effect the tattoo.. it might cause loose skin.. but the tattoo will just adjust to the skin..**

### **MINIMUM TATTOO AGE**

**You MUST be 18 to be tattooed in the state of California. Sorry NO parent permission slips are accepted. Piercing does not have a minimum age limit.**

### **TATTOOS ARE NOT A GOOD IDEA IF:**

**\*\*\*We will absolutely refuse service to any one that appears to be under the influence of ANY drug or alcohol. We have a ZERO tolerance for drug and alcohol use in this parlor.. that goes for our employees AND our customers.**

**Pregnant woman are urged to follow the advice of their physician which will be "Do not get tattooed until after the baby is born. It can cause unnecessary stress to the unborn and possibly the mother that can lead to complications"**

### **ANY QUESTIONS NEED ANSWERING THAT ARE NOT LISTED??**

**PLEASE CALL US and we will do our best to assist you with any and all questions you might have. 760-532-0360.**

**Miramar Tattoos..... changing the reputation of tattoo shops one day at a time....**
